

U:create

U:create is a multipurpose paper perfect for the home and office enabling you to create consistent and high quality documents, wherever you work, however you work, whenever you work.

U:create is now carbon balanced meaning the emissions associated with its production are balanced by the global conservation charity **World Land Trust** Who use the contributions from the **Carbon Balanced Programme** to protect land from deforestation and degradation ensuring CO2 remains locked-up within these invaluable eco-systems and enabling the trees to continue absorbing CO2

Specifications
